

MEMORANDUM

To: Mayor Tokunaga & Members of the Board of Trustees

From: Patrick Murphy

Date: June 24, 2015

RE: Audited Financial Statements for December 31, 2014

.....

The enclosed Financial Statements for December 31, 2014 have been audited by Anderson and Whitney and they have issued their unqualified opinion that these statements fairly represent the financial position of the Town. An unqualified opinion is always the goal, as it provides you and the citizens of Milliken with assurance that these statements provide a reliable representation of the Town's financial status and performance for previous fiscal year. I realize that the format of these statements, the language surrounding the audit opinion, and the Notes to the Financial Statements, can be daunting to absorb, so, you may find that the Management Discussion and Analysis that precedes the financial statements will assist you in putting these statements in context. You might also re-review the memorandum I provided to you with the Financial Report for 2014, which covers some of the financial highlights of the year in more detail. The Financial Statements have been submitted to you in DRAFT form, and will become final upon your acceptance of them at the meeting.

In the meantime, I would highlight that:

1. The Town remains in good financial condition.
2. These financial statements reflect the same information presented to you on April 8th, as the auditors made no adjustments to the financial records we provided. This is the second consecutive year that our statements have been audited without adjustment – and by two different outside firms – which should provide you with confidence in the integrity of the Town's internal financial statements and accounting records.
3. The General Fund ended the year with the targeted reserve of over 50% of annual expenditures, which you adjusted downward to 25% for the 2015 Budget.
4. A resurgent construction industry continues to boost revenues in multiple funds (General, Impact Fees, Water, and Sewer), which will assist the Town in funding future capital projects.
5. Grants played a significant role in funding projects in 2014 and will continue to do so into 2015 and beyond.
6. These statements reflect the last remaining expenses for FEMA Flood Recovery Projects, with the exception of the road repairs that were completed this year. All of our FEMA projects and files should be closed out before 2015 comes to an end.

Alan Holmberg, the Partner-in-Charge at Anderson and Whitney will be on hand at the Board Meeting to review the statements and answer any questions you may have.

Respectfully,

MEMORANDUM

To: Mayor Tokunaga & Members of the Board of Trustees

Independent Auditors' Report

The Mayor and Members
of the Board of Trustees
Town of Milliken
Milliken, Colorado

We have audited the accompanying basic financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Milliken, Colorado as of and for the year ended December 31, 2014, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluation the overall presentation of the financial statements.

DRAFT

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the basic financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Milliken as of December 31, 2014, and the respective changes in financial position and cash flows where applicable for the year then ended, in conformity with accounting principles generally accepted in the United States.

Other Matters

Accounting principles generally accepted in the United States require that management discussion and analysis and the General Fund and Grants Fund budget comparisons be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statement, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with evidence sufficient to express an opinion or provide any assurance.

Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The combining statements, individual fund statements and schedules on pages 36-47 and the Local Highway Finance Report are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

June __, 2015

**TOWN OF MILLIKEN
MANAGEMENT'S DISCUSSION AND ANALYSIS**

As management of the Town of Milliken (the "Town"), we are pleased to present the basic financial statements of the Town's financial activities for the year ended December 31, 2014. We also offer this narrative and analysis to help guide you in understanding the town's financial position, the fiscal reflection of the decisions adopted by the Board of Trustees, and the administration and execution of those decisions by Town staff. We encourage you to consider the information presented here in conjunction with the basic financial statements to enhance your understanding of the Town's financial performance.

FINANCIAL HIGHLIGHTS

The Town ended the year in strong financial position and is well-prepared to fund the operations and capital projects slated for 2015. The general operations of the Town are funded substantially through property and sales tax revenues, the former of which are supported significantly by the property taxes derived from over 220 oil and gas wells within Town limits. Fund revenues closed the year ahead of even our upwardly-revised projections, driven by continued growth in local construction activity and consumer spending. By the end of the year, the Town had actually issued 91 new residential home permits and multiple commercial construction permits, in addition to all of the remodeling, additions, solar installations, and various other minor construction projects undertaken by the community in 2014. This increased construction activity also fueled growth in the resources available for capital projects in the Impact Fees Fund and the Water and Sewer Funds, all of which will support future capital investments in the Town.

The Town was also the beneficiary of a substantial number of grants in 2014, including over \$314,000 for the Hillsboro Skate Park (Great Outdoors Colorado), nearly \$100,000 from Kaiser Permanente (Walk and Wheel Trail Projects) and almost \$135,000 from the Department of Local Affairs for a Stormwater Master Plan Update.

Expenditures remained in check through the end of the year, providing additional surpluses for future funding opportunities, even as Town staff worked hard to complete a multitude of capital projects, grant-funded activities, and the last of the flood-recovery assignments. Consequently, the Board, and the citizens of Milliken can remain confident that the funds appropriated in the 2015 budget are secure and available to provide for the ambitious activities planned for the current year.

- The Town's assets exceeded liabilities and deferred inflows by \$14,991,471 at December 31, 2014. Of this amount, \$2,988,001 is unrestricted and may be used to meet the Town's ongoing obligations to citizens and creditors. This represents an unrestricted increase of \$715,272 over 2013.
- The General Fund Fund Balance was \$2,184,598 as of December 31, 2014. Of this amount, \$105,238 is legally restricted for emergencies and \$102,000 is Assigned to future commitments and contingencies related to the installation of infrastructure and a funding Agreement with the Thompson Rivers Parks and Recreation Department for the Milliken Athletic Center. The remaining unassigned fund balance of \$1,977,360 is \$316,804 more than last year and represents 50.7% of General Fund operating expenditures, which exceeds the Board's 2014 target requirement of 50% by over \$23,000.

- The Water Fund has net position of \$19,376,737 at December 31, 2014, of which \$1,111,165 is available for operating reserves. \$3,790,499 is restricted for Capital Improvements, \$392,527 for Water Rights Acquisition and \$97,347 for Debt Service. The remainder is invested in Net Capital Assets.
- The Sewer Fund has net position of \$6,015,207 at December 31, 2014, of which \$873,418 is available for operating reserves. \$2,065,753 is restricted for Capital Improvements. The remainder is invested in Net Capital Assets.

You will find in the Notes to Financial Statements section of this report a reference to a contingent liability in the Water Fund. Although the amount has not been quantified, the closure of the Town's Reverse Osmosis water treatment facility at the end of the year represents a significant event in 2014 which will have financial consequences in future years, as the Town works to implement a new strategy for its water treatment facilities.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Basic Financial Statements of the Town are comprised of three components:

(1) Government-Wide Financial Statements, (2) Fund Financial Statements, and (3) Notes to the Financial Statements. Below is a description of each component. In addition to the basic statements, this report also contains other supplementary information.

Government-Wide Financial Statements. The *Government-Wide Financial Statements* are designed to provide you with a broad overview of the Town's finances in a manner similar to a private sector business. These statements distinguish functions of the Town which are principally supported by taxes and intergovernmental revenues (Governmental Activities) from other functions of the Town that are intended to recover all, or a significant portion, of their costs through user fees and charges (Business-Type Activities). The Governmental Activities of the Town include General Government, Public Safety (Police), Public Works, Parks and Open Space, Community Development and Events. The Business-Type Activities include Water, Sewer, and Trash.

The *Statement of Net Position* presents information on all of the Town's assets, deferred outflows of resources, liabilities and deferred inflows, with the difference reported as *Net Position*. Over time, increases or decreases in Net Position may serve as a useful indicator of whether the Town's financial position is improving or deteriorating.

The *Statement of Activities* presents information showing how the government's Net Position changed during the fiscal year. All changes in Net Position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in the statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused personal time).

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Some funds are required to be established by state law and/or bond covenants, however, the Town Board of Trustees also establishes other funds to help control and manage money for particular purposes. The Town, like other local governments, uses fund accounting to ensure and demonstrate compliance with these finance-related legal requirements. All of the funds of the Town can be divided into two categories: Governmental Funds and Proprietary Funds.

Governmental Funds. *Governmental Funds* are used to account for essentially the same functions reported as *Governmental Activities* in the Government-Wide Financial Statements. However, unlike the Government-Wide Financial Statements, Governmental Fund Financial Statements focus on *near-term inflows and outflows of spendable resources, as well as on balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of Governmental Funds is narrower than that of the Government-Wide Financial Statements, it is useful to compare the information presented for *Governmental Funds* with similar information presented for *Governmental Activities* in the Government-Wide Financial Statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the Governmental Fund Balance Sheet and the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances provide a reconciliation to facilitate this comparison between *Governmental Funds* and *Governmental Activities*.

The Town maintains eight individual Governmental Funds. Information is presented separately in the Governmental Fund Balance Sheet and in the Governmental Fund Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund and other Major Funds. "Major Funds" are determined based on a variety of factors, not all of which are financial in nature, with an emphasis on presenting the most representative picture of governmental activities as possible. Those funds determined to be "Non-Major" are combined and reported as Other Governmental Funds into a single, aggregated presentation. Individual fund data for each of these Non-Major Funds is provided in the form of combining statements elsewhere in this report.

Proprietary Funds. The Town maintains one type of a proprietary fund – an *Enterprise Fund* – to account for its Water, Sewer and Trash Funds. *Enterprise Funds* are used to report the same functions presented as *Business-Type Activities* in the Government-Wide Financial Statements. These funds are considered to be Major Funds of the Town.

Notes to the Financial Statements. The Notes provide additional information that is essential to a full understanding of the data provided in the Financial Statements and offer helpful insights into the transactions that are reflected in all levels of this report.

Budgetary Comparisons. The Town adopts an annual appropriated budget for all funds. A budgetary comparison schedule has been provided for the General Fund on page 34 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

DRAFT

Net Position. As noted earlier, net position may serve as a useful indicator of a government's financial position over time. As of December 31, 2014, the Town's assets exceeded liabilities and deferred inflows of resources by \$40,398,312, compared to \$37,004,784 in 2013, an increase of over 9%.

The following table provides a summary of the Town's Net Position for both years:

December 31	2014		2013	
	Governmental Activities	Business-Type Activities	Governmental Activities	Business- Type Activities
Assets				
Current and Other Assets	\$ 6,703,284	\$ 8,766,854	\$ 5,561,965	\$ 6,909,244
Capital Assets	13,780,240	20,834,456	13,070,115	21,329,497
Total Assets	20,483,524	29,601,310	18,632,080	28,238,741
Liabilities				
Current and Other Liabilities	381,590	105,025	314,178	150,444
Long-Term Liabilities	2,789,315	4,089,444	2,885,791	4,402,153
Total Liabilities	3,170,905	4,194,469	3,199,969	4,552,597
Deferred Inflows				
Deferred Property Taxes	2,321,148	--	2,113,471	--
Net Position				
Net Investment in Capital Assets	11,101,025	16,723,647	10,312,652	16,942,866
Restricted	902,445	--	733,259	73,668
Unrestricted	2,988,001	8,683,194	2,272,729	6,669,610
Total Net Position	\$14,991,471	\$25,406,841	\$13,318,640	\$23,686,144

A portion of The Town's Net Position represents unrestricted net assets of \$11,671,195, which may be used to meet the Town's ongoing obligations to citizens and creditors.

Another significant portion of the Town's net position reflects its investment in Capital Assets. These assets include land, infrastructure, buildings, equipment, and water rights. These capital assets are fixed investments and used to provide services to citizens; consequently, they are not available for future spending. Although the investment in capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets, themselves, cannot be used to liquidate these liabilities.

An additional \$902,445 of the Town's Net Position represents resources that are subject to external restrictions on how they may be used. Included in this category are the TABOR Emergency Reserve, Debt Service Reserve, and Conservation Trust Fund Revenues restricted for Parks and Recreation projects.

The following table reflects the Changes in Net Position for comparative years :

DRAFT

Years Ended December 31	2014		2013	
	Governmental Activities	Business-Type Activities	Governmental Activities	Business-Type Activities

Interest on Long-Term Debt	109,631	141,026	131,740	153,149
Water	--	884,650	--	912,020
Sewer	--	674,162	--	757,498
Trash	--	285,643	--	266,872
Total Expenses	4,355,304	1,985,481	4,147,671	2,089,539
Increase in Net Position	\$ 1,672,831	\$ 1,720,697	\$ 382,963	\$ 81,833

Governmental Activities. Governmental activities increased the Town's Net Position by \$1,672,831 in 2014. Key elements of this increase are as follows:

- Total revenues increased approximately 33% as a result of increased property and severance tax revenue, building permit fees, and a significant increase in sales and use taxes, particularly from the sales of new vehicles and the boost provided from new construction. Grant Fund and Impact Fee Fund revenues also notably contributed to this increase.
- Expenses increased approximately 5% from the previous year, from increased services, particularly related to the increase in building inspection services and grant-related activities.

Business-Type Activities. Business-type activities (i.e. utility services) increased the Town's net position by \$1,720,697 in 2014. This was primarily due to a significant increase in capital investment fees for new construction and an increase in the customer base from general population growth and development.

FINANCIAL ANALYSIS OF THE TOWN'S FUNDS

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and Board policy.

As of December 31, 2014, the total fund balances of the Town's Governmental Funds were \$3,890,446. Approximately 51% of this consists of unrestricted fund balance, which is available as working capital and for current spending in accordance with the purposes of the specific funds. The remainder of the fund balance total is restricted to indicate that it is not available for new spending because it is committed for the following purposes: Debt Service - \$672,551; a State-Constitution Mandated Emergency Reserve - \$105,238; Conservation Trust Funds for Parks and Recreation - \$124,656; a Reserve for a committed future Infrastructure Project \$102,000; Grant Funds assigned for specific projects - \$231,967, Impact Fee Funds earmarked for specific project types - \$370,532, and funds allocated to Capital Projects - \$306,142.

The Town has three Major Governmental Funds:

1. **General Fund.** This is the primary operating fund of the Town. It accounts for the Town's core governmental services. The General Fund Balance was \$2,184,598 as of December 31, 2014, and increased \$298,175 over 2013.
2. **Debt Service Fund.** The Debt Service Fund accounts for the payment of the Town's general debt. The fund balance at December 31, 2014 was \$672,551, all of which is restricted for Debt Service.
3. **Grants Fund.** The Grants Fund accounts for grant proceeds received, and Town matching funds provided, to complete grant-related projects. The Fund Balance at December 31, 2014 was \$231,967, all of which is assigned to specific projects.

The Town has two major Enterprise Funds, the Water and Sewer Funds.

1. **Water Fund.** The Water Fund accounts for service charges and expenses of operating the Town's water system, in addition to the capital investment fees and capital project expenditures related to improving the infrastructure of the utility. The Water Fund Net Position at December 31, 2014 is \$19,376,737. Net Position increased by \$1,267,563 during the year as a result of increased tap fees from new construction and a general increase in revenues from new customer growth.
2. **Sewer Fund.** The Sewer Fund accounts for service charges and expenses of operating the Town's sanitary sewer system, in addition to the capital investment fees and capital project expenditures related to improving the infrastructure of the utility. The Sewer Fund net position at December 31, 2014 is \$6,015,207. Net position increased by \$457,329 due significantly from an increase in sewer tap fees.

GENERAL FUND BUDGETARY HIGHLIGHTS

DRAFT

The Town's budget is prepared according to Colorado statutes. The most significant budgeted fund is the General Fund.

	Final Budget	Actual
Beginning Fund Balance	\$ 1,886,423	\$ 1,886,423
Revenue and Transfers In	4,247,142	4,304,115
Expenditures and Transfers Out	4,232,372	4,005,940
Ending Fund Balance	\$ 1,901,193	\$ 2,184,598

The 2014 Budget was amended during the year as part of the process of preparing the budget for 2015. At that time, updated estimates were made for all revenues and expenses and these revised estimates were adopted as the amended budget for 2014 at the end of the year.

Total revenues for the General Fund were \$3,898,116, nearly \$57,000 ahead of the revised budget, led by specific ownership taxes, sales and use taxes, and building permits. Sales taxes increased nearly 10% over 2013, and the use taxes on vehicle sales were nearly 50% ahead of the year before. Combined with the dramatic increase in use taxes for building materials (up 133%), these revenues pushed total taxes and fees up a full 20% from 2013 levels.

General Fund Expenditures were held below projected levels by over \$226,000 which contributed significantly to the additional contribution to the year-end surplus and final Fund Balance. All major flood recovery costs have been recorded, so the recognition of any revenue received in 2015 will provide additional resources for the year. The only department that ran over budget was Public Works and Facilities Maintenance and this was primarily due to: (1) the accounting treatment required for the purchase of a skid steer, as the lease financing secured required the recognition of the entire purchase in this year, even though the cash payments were budgeted to be spent in 2014 and 2015, and (2) the overrun in the projected cost of utilities for Town facilities. These additional costs were more than offset in other departments, leaving the General Fund in healthy financial condition as we headed into 2015.

The General Fund's Unassigned Fund Balance of \$1,977,360 represented over 56% of the year's expenditures, exceeding the 50% reserve targeted by the Board of Trustees by \$223,390.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets. At the end of the year, the Town's net investment in capital assets amounted to \$34,614,695. This investment in capital assets consists of land, infrastructure, utility distribution systems, property and equipment, net of accumulated depreciation. During 2014, the Town completed construction of the Hillsboro Skate Park, major site improvements and landscape around the Heritage House at Avila Park, and additional improvements to Town Hall. The Town was also in the final stages of construction on the Windmill Gateway entrance to Town, the Materials Storage Facility for Public Works, and the installation of a shade structure at Sappington Park in partnership with the Centennial Metropolitan District.

Long-Term Debt. At December 31, 2014, the Town had \$4,073,922 of water and sewer loans payable, funded by service charges and a portion of capital investment fees. The Town also has General Obligation Bonds outstanding for the debt incurred to construct the Police Station and Meeting House (\$1,765,000), which is funded through a property tax levy, and outstanding Sales Tax Bonds (\$795,000) related to the installation of the signal light at Highways 60 and 257 at the entrance to Town. The remaining two payments on a capital lease for vehicles (\$13,517) and Accrued Compensated Absences (Vacation, Sick, and Compensatory Time - \$95,536) rounded out the balance of the Town's Long-Term obligations.

Additional information on the Town's Capital Assets and Long-Term Debt can be found in the Notes to the Financial Statements.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the Town of Milliken finances for all those with an interest in the Town's fiscal condition. Questions concerning any of the information provided or for additional financial information should be addressed to the Town, 1101 Broad Street, Milliken, Colorado 80543.

TOWN OF MILLIKEN, COLORADO

STATEMENT OF NET POSITION

**TOWN OF MILLIKEN, COLORADO
GOVERNMENTAL FUNDS**

DRAFT

**STATEMENT OF REVENUE, EXPENDITURES
AND CHANGES IN FUND BALANCES - Continued**

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ 745,333
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital additions exceeded depreciation in the year.	710,125
The issuance of long-term debt and obligations provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. This amount is the net effect of these differences.	183,946
Decrease in accrued interest payable, which was not reflected in the governmental funds	635
Decrease in compensated absences, which does not require cash	32,792

Change in Net Position of Governmental Activities	\$ 1,672,831
---------------------------------------------------	--------------

TOWN OF MILLIKEN, COLORADO

NOTES TO FINANCIAL STATEMENTS

DRAFT

NOTE 1 - Summary of Significant Accounting Policies:

The accounting and reporting policies of the Town of Milliken, Colorado conform to accounting principles generally accepted in the United States. The following summary of significant accounting policies is presented to assist the reader in evaluating the Town's financial statements.

Reporting Entity:

The financial report of the Town includes all of the integral parts of the Town's operations. The Town has determined that it has no financial accountability for any other agency which would require it to be in the reporting entity.

The Mayor appoints members of the Milliken Housing Authority. Otherwise, the Town has no role in the designation of management and no ability to influence operations. The Town does not have financial accountability for the Milliken Housing Authority, as the Authority is fiscally independent.

Proceeds from the seizure of contraband, if any, are included in the reporting entity.

Government-Wide and Fund Financial Statements:

The Government-Wide Financial Statements (i.e., the Statement of Net Assets and the Statement of Activities) report information on all of the nonfiduciary activities of the town. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The Statement of Activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds and enterprise funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

TOWN OF MILLIKEN, COLORADO

NOTES TO FINANCIAL STATEMENTS

DRAFT

NOTE 1 - Summary of Significant Accounting Policies - Continued:

Government-Wide and Fund Financial Statements – Continued:

The Town reports the following major governmental funds:

The *General Fund* is the Town's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Grants Fund* accounts for the receipt and spending of the proceeds of state, federal and private grants including any matching funds provided by the Town.

The *Debt Service Fund* accounts for revenues received to accumulate resources for the payment of principal and interest on long-term debt not being financed by proprietary funds.

The Town reports the following major proprietary funds:

The *Water Fund* accounts for user charges and the expenses for operating, financing, and maintaining the Town's water system.

The *Sewer Fund* accounts for user charges and expenses for operating, financing, and maintaining the Town's sanitary sewer system.

Certain eliminations have been made as prescribed by GASB Statement No. 34 in regards to interfund activities, payables, and receivables. All internal balances in the Statement of Net Position have been eliminated.

Accounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the sewer fund, water fund, and the other enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use restricted resources first, then unrestricted resources as they are needed.

TOWN OF MILLIKEN, COLORADO

NOTES TO FINANCIAL STATEMENTS

DRAFT

NOTE 1 - Summary of Significant Accounting Policies - Continued:

Measurement Focus, Basis of Accounting, and Financial Statement Presentation:

The Government-Wide Financial Statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary funds. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Government fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the town considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Cigarette taxes, sales taxes, use taxes, taxpayer-assessed taxes, interest revenue, and charges for services are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

Capital Assets:

Capital assets, which include property, plant, equipment, and infrastructure assets (i.e., streets and roads, bridges, stormwater drainage, traffic signals, and similar items), are reported in the applicable governmental or business-type activities columns in the Government-Wide Financial Statements. Capital assets are defined by the Town as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value on the date received.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable.

TOWN OF MILLIKEN, COLORADO

NOTES TO FINANCIAL STATEMENTS

DRAFT

NOTE 1 - Summary of Significant Accounting Policies - Continued:

Capital Assets – Continued:

Assets are depreciated using the straight-line method. Depreciation expense is reflected as an operating expense in the Government-Wide Statement of Activities.

Estimated useful lives for asset types are as follows:

Buildings and Improvements	30 – 50 years
Equipment and Vehicles	5 – 10 years
Infrastructure	10 – 50 years

Long-Term Obligations:

In the Government-Wide Financial Statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issued are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Equity:

In the fund financial statements, governmental funds report restrictions of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose.

Restrictions for the Town are recorded up to the maximum equity available in the fund balance and consist of:

Restricted for Emergencies:

These restrictions are established to comply with TABOR. Recorded TABOR restrictions at December 31, 2014 are \$105,238.

Assigned fund balances, if any, are amounts the Town intends to use for a specific purpose. Intent can be expressed by the Board of Trustees or by an official to which the Board delegates authority. Restricted funds are considered to be spent first, followed by assigned and unassigned, for an expenditure for which any could be used.

TOWN OF MILLIKEN, COLORADO

NOTES TO FINANCIAL STATEMENTS **DRAFT**

NOTE 1 - Summary of Significant Accounting Policies - Continued:

Property Taxes:

Property taxes are levied in December and attach as an enforceable lien on property as of January 1 of the following year. Taxes are payable in two installments on March 1 and June 15, or in full on April 30. The Town uses the Weld County Treasurer to bill and collect its property taxes. Taxes levied in December 2014 are recorded as taxes receivable and deferred revenue as of December 31, 2014. The original January 1, 2014 levy for the General Fund and Debt Service Fund of the Town was 28.623 mills and 2.413 mills, respectively, or approximately \$2.1 million and \$.2 million, respectively. Of the General Fund levy, \$143,934 was allocated to the Oil & Gas 5.5% Exempt Fund.

Budget:

An annual budget and appropriation ordinance is adopted by the Town Board in accordance with the Local Government Budget Law. The budget is prepared on a basis consistent with accounting principles generally accepted in the United States for all funds, except for modifications in the enterprise funds which are discussed below. The fund level of classification is the level at which expenditures may not legally exceed appropriations. All annual appropriations lapse at year end.

The Town Administrator is authorized to transfer budgeted amounts within departments of each fund. Any revisions that alter the total appropriation for each department must be approved by the Town Board through a supplemental appropriation ordinance.

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States (GAAP), except for the enterprise funds:

- a. Depreciation and amortization expense is budgeted in the enterprise funds.
- b. Principal reduction of bonds is budgeted as expenses.
- c. Property and equipment purchases are budgeted as expenses.

Budgetary comparisons presented in the enterprise funds are on this non-GAAP budget basis.

The Town may be in violation of the Colorado Revised Statutes due to the over-expenditures of budget appropriations in the Impact Fee and Trash Fund.

Transfers In/Out:

Transfers to the General Fund were made from the Water, Sewer, Trash and Street Funds to reimburse the General Fund for various administrative expenses.

TOWN OF MILLIKEN, COLORADO

NOTES TO FINANCIAL STATEMENTS

DRAFT

NOTE 1 - Summary of Significant Accounting Policies - Continued:

Pooled Cash:

Most cash resources of the Town are combined and deposited in an interest bearing bank account. Interest income earned on the pooled account is allocated to the General Fund. If a fund's share of the pooled cash is a deficit, a Due to Other Funds account is established.

Employee Vacation and Sick Leave:

All full-time Town employees accumulate sick leave for subsequent use. A percentage of sick time is paid based on years of service upon termination. Employees also receive vacation leave. The amount earned but unused at the time of termination is paid.

Non-exempt employees meeting overtime criteria can choose to receive compensatory time in lieu of cash payment. The time that is accumulated is payable upon termination.

Statement of Cash Flows:

For purposes of the statement of cash flows, the Town considers all highly liquid investments purchased with a maturity of three months or less to be cash equivalents.

NOTE 2 - Cash and Investments:

The Town's bank accounts and certificates of deposit at year-end were entirely covered by federal depository insurance or by collateral held by the Town's custodial banks under provisions of the Colorado Public Deposit Protection Act.

The Colorado Public Deposit Protection Act requires financial institutions to pledge collateral having a market value of at least 102% of the aggregate public deposits not insured by federal depository insurance. Eligible collateral includes municipal bonds, U.S. government securities, mortgages and deeds of trust.

State statutes authorize the Town to invest in obligations of the U.S. Treasury and U.S. agencies, obligations of the State of Colorado or of any county, school district, and certain towns and cities therein, notes or bonds secured by insured mortgages or trust deeds, obligations of national mortgage associations, and certain repurchase agreements.

At December 31, 2014, the Town had \$3,604,269 invested in the Colorado Secure Assets Fund (CSAFE), an SEC Rule 2a7-like investment pool. Investments are valued at amortized cost with each share valued at \$1.00. The investment pools are routinely monitored by the Colorado Division of Securities with regard to operations and investments. CSAFE is rated AAAM by Standard & Poor's.

	\$ 4,386,631	\$ --	\$ 312,710	\$ 4,073,921	\$ 319,020

NOTE 5 – Governmental Long-Term Debt:

The Town has entered into a capital lease for a police car. Annual payments of \$7,419 are required until 2016 including interest at 6.45%. The car secures the capital lease and is carried at \$24,268 at December 31, 2014. Lease payments will be made by the General Fund.

During 2004, the Town issued Sales and Use Tax Revenue Bonds, Series 2004A in the amount of \$1,350,000, to finance the construction and installation of traffic signals and related improvements to the intersection of State Highways 60 and 257. Principal payments are due annually on December 1. Interest payments are due semi-annually on June 1 and December 1, through 2023. Interest accrues at rates ranging from 4.15% to 4.85%.

During 2007, the Town issued General Obligation bonds, Series 2007, in the amount of \$2,500,000, for the purpose of designing, acquiring, constructing and furnishing a new police department facility. Principal payments are due annually on December 1. Interest payments are due semi-annually on June 1 and December 1, through 2027. Interest accrues at rates ranging from 4.0% to 4.5%.

NOTE 5 – Governmental Long-Term Debt – Continued:

The following is a schedule of the future payments under these loans and capital leases, and the present value of the payments at December 31, 2014.

Year Ending December 31	Amount
2015	\$ 299,832
2016	302,720
2017	292,675
2018	299,755
2019	301,130
2020-2024	1,354,888
2025-2027	551,652
Total minimum payments	3,402,652
Less: Amount representing interest	829,135
Present value of future payments	\$ 2,573,517

Changes in long-term debt during the year were as follows:

	Balance, 1/1/14	Additions	Retirements	Balance, 12/31/14	Due Within One Year
Sales Tax Bonds	\$ 865,000	\$ --	\$ 70,000	\$ 795,000	\$ 75,000
G.O. Bonds	1,865,000	--	100,000	1,765,000	100,000
Capital Lease	27,463	--	13,946	13,517	7,419
Compensated Absences	128,328	124,240	157,032	95,536	--
	\$2,885,791	\$ 124,240	\$ 340,978	\$ 2,669,053	\$ 182,419

NOTE 6 - Defined Contribution Plans:

Paid Policemen’s Pension Plan: The Town and its police officers participate in a defined contribution pension plan for the benefit of all police officers. In a defined contribution plan, benefits depend solely on amounts contributed to the plan, plus investment earnings. The contribution requirements of the police pension plan participants and the Town are established, and may be amended, by the Board of Trustees. The Town is required to contribute 12% of each participating employee’s compensation hired prior to 2007, and 8% for those hired after 2007. Each employee must contribute 8% of their salary. Employees become vested in employer contributions to the police pension plan at 20% per year of service. During the year ended December 31, 2014, the Town and employee contribution were \$55,521 and \$41,978, respectively, equal to the required contributions.

TOWN OF MILLIKEN, COLORADO

NOTES TO FINANCIAL STATEMENTS

DRAFT

NOTE 6 - Defined Contribution Plans – Continued:

Non-Civil Employees' Pension Plan: All non-civil employees who work a minimum of 20 hours each week are eligible to participate in a defined contribution pension plan upon completion of their probationary period. In a defined contribution plan, benefits depend solely on amounts contributed to the plan, plus investment earnings. The contribution requirements of plan participants and the Town are established, and may be amended, by the Board. The Town is required to contribute 3% of each participant's base salary to the plan, and employees must contribute 2% of their salary. Employees become vested in employer contributions to the employees' pension plan at 20% per year of service. During the year ended December 31, 2014, the Town and employee contributions were \$26,594 and \$17,706, respectively, equal to the required contributions.

NOTE 7 - Colorado Intergovernmental Risk Sharing Agency (CIRSA):

CIRSA is a separate legal entity established by member municipalities pursuant to the provisions of Colorado Revised Statutes and the Colorado Constitution. In 1986, the Town Board authorized participation in the agency. The Town has participated each year since then.

The purposes of CIRSA are to provide members defined liability and property coverages and to assist members to prevent and reduce losses and injuries to municipal property and to persons or property which might result in claims being made against members of CIRSA, their employees or officers.

The Town recognizes an expenditure for the amount paid to CIRSA annually for these coverages. The Town paid \$132,088 to CIRSA in 2014, including \$37,144 for workers compensation coverage. Settled claims have not exceeded this coverage in any of the past three fiscal years.

NOTE 8 - Contingencies:

In 1992, Colorado voters approved "Amendment One", or the Taxpayer's Bill of Rights (TABOR). TABOR requires voter approval for any new tax, tax rate increase, mill levy increase, or new debt. Voter approval is also required to increase annual property taxes, revenue, or spending by more than inflation plus a local growth factor. Spending not subject to TABOR includes that from enterprise activities, gifts, federal funds, reserve expenditures, damage awards, or property sales.

In November 2001, the electors of the Town of Milliken voted to supersede TABOR and to collect, retain, and expend the full proceeds of all taxes, fees, and other revenue without increasing or adding taxes of any kind.

TOWN OF MILLIKEN, COLORADO

NOTES TO FINANCIAL STATEMENTS

DRAFT

NOTE 8 – Contingencies – Continued:

The Amendment is complex and subject to judicial interpretation. The Town believes it is in compliance with the applicable requirements of the Amendment. Included in the accompanying financial statements are emergency reserves required by TABOR, of at least 3% of fiscal year spending, recorded in the General Fund.

The Town is periodically subject to various claims and legal proceedings covering a wide range of matters that arise in the ordinary course of its activities. The Town believes that any liability that may ultimately result from the resolution of these matters will not have a material adverse effect on the financial position or activities of the Town.

The Town received Notices of Violations (NOV) and Cease and Desist Orders from the Colorado Department of Public Health and Environment (CDPHE) in May 2014, related to violations of its discharge permit for the operation of the Town's Reverse Osmosis (R/O) Water Treatment Facility. The violations related to the levels of selenium contained in the discharge brine from the facility, in addition to reporting deficiencies and a failure to address the discharge non-compliance issue in accordance with prior notifications and inspections. The Town immediately and comprehensively responded to the orders contained in the NOV's and is operating under a strict compliance schedule to assess and evaluate its long-term treatment options to resolve the matter permanently. The Town voluntarily ceased operation of the R/O facility on December 2, 2014 to eliminate any additional violations, and to demonstrate its commitment to resolving the problem until a solution is identified and implemented. In the meantime, the Town has negotiated a capacity and service-level amendment to its supply agreement with one of its outside water treatment providers and notified the other provider of the Town's intent to increase treatment volumes in 2015.

The financial implications of these events are many, however, as of the date of this report, an accurate assessment of the potential liability cannot be quantified with any level of certainty. The daily fine for non-compliance is \$10,000 per day, and the Town has violations that extend over several years. However, the diligent efforts the Town has made to adhere to the current compliance schedule and its commitment to resolve the systemic problem with its R/O facility may be significant mitigating factors considered by the CDPHE during the upcoming negotiations to determine the final penalty to be assessed if any.

In addition, the Town will potentially expend several hundred thousand dollars for water treatment in 2015, depending on the level of demand and the management of the supply. The Town has water restrictions in place to help alleviate the potential burden and related costs, and will continue to notify its customers of these restrictions and their enforcement.

TOWN OF MILLIKEN, COLORADO

NOTES TO FINANCIAL STATEMENTS

DRAFT

NOTE 9 – Housing Authority Notes Receivable:

The Housing Authority has five separate notes receivable from Dove Valley, LLLP, the Company that owns and operated the low-income housing facility for which the Authority was created. Four of the notes carry interest at 0.5% compounded annually, with balances of \$400,000, \$200,000, \$747,192 and \$140,000 at December 31, 2014. The other note carries an interest rate of 5.0% and a balance of \$39,043 at December 31, 2013. All of the notes mature in December 2046, when all of the principal and accrued interest will be due. As of December 31, 2014, there was accrued interest of \$81,625, included in Other Receivables in the accompanying Statement of Net Position.
