Public Hearing opened at: 7:05 P.M

Director Perkins spoke to the Commission indicating that after obtaining input at a joint work session the Town Board on January 20, 2016. The Town's Board of Trustees would like to amend the existing regulations governing the operation of home occupations in the Town's Municipal Land Use Code, Section 16-3-620 "Home Occupations", to balance the goal of protecting and maintaining the character of residential neighborhoods with the desire to allow limited commercial activities as an accessory use on residential property.

Chair Woodcock indicated that he was not able to thoroughly review the ordinance and the revisions made to it. Other Commissioners indicated the same thing. Chair Woodcock would like to continue this to another meeting.

Commissioner Blackmer asked if Hazardous Materials is defined in the code. Director Perkins indicated that it is defined in the Code. Commissioner Blackmer would like to have that better defined within this ordinance. Director Perkins responded that she will review this and address this. She also indicated that typically the Fire Marshall would inspect these areas, but unfortunately they do not have enough funding or time in regard to the Home Occupations they typically look at regular businesses.

Commissioner Blackmer asked how the Town would know there are people having a Home Occupation, is it complaint based or would Code Enforcement search for these businesses. Director Perkins and Town Administrator Brown indicated that it would be both.

Chair Woodcock suggested putting a notice in the Town's Newsletter on a quarterly basis. Commissioner Satterfield asked if these businesses could be placed on the Website/Facebook page and when a new business opens if it could not be announced. Director Perkins indicated that she and the Town Administrator have discussed this.

The Commission asked to continue this until February 17, 2016 at 7:00 PM.

DISCUSSION AGENDA

1. Accessory Structures

Staff would like direction from the Commission on whether to pursue a code change for accessory structures to allow an attached garage not to be considered an accessory structure. Commissioner Blackmer indicated there should be one wall in common between the house and garage. Commissioner Watson indicated that he would not object if the rooflines were attached.

Director Perkins explained that there have been quite a few Use by Special Reviews and when that happens it may be an indicator that the Code needs to be looked at. She explained that the change would make it less onerous on the homeowner. Most of these requests are coming from those in Agricultural Estate areas where they have enough land.

Commissioner Watson would like lot coverage to be discussed as part of the requirement for assessor buildings.
