## MILLIKEN COMMUNITY TRAILS SURVEY

The Thompson Rivers Parks and Recreation District, municipal leaders, and local stakeholders are exploring opportunities to develop a trail in southwest Weld County and would like your input!

Currently an abandoned rail corridor south of Milliken is being considered for this purpose. Nearby natural and historic features, including the Wildcat Mounds, the South Platte River, the St. Vrain River, and Fort St. Vrain, would make it an ideal regional trail corridor. A trail in this location could serve as the spine of a regional trails network, eventually connecting Milliken to nearby communities such as Firestone, Mead, Platteville, or Berthoud, and bridging a gap in the state trail system. These existing amenities and potential connections would offer opportunities to attract visitors to local communities. To align future trail projects with community needs and values, we need your feedback. Please follow the link below to answer questions about your current trail usage, your community, and things you would like to see in new trail development.
